

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "A"

Section 1. Identification

GHS product identifier	:	H2OtoGro Hydroponic Nutrient Part "A"
Other means of identification	:	Hydroponic Nutrient "Part A"
Recommended use of the Chemical and restriction on use	:	A plant nutrient used to obtain faster growth and larger yields in all kinds of growing media. Not to be used as food or feed in any forms.
Supplier/Manufacturer's details:		H2OtoGro Hydroponics 24835 N. Sunset St Paulden, AZ 86334 Tel: (951) 381-0550 Email: info@h2otogro.com www.h2otogro.com
Emergency Phone number	:	24 Hour Transportation Emergency Number H2OtoGro Hydroponics (951) 381-0550, U.S.A, Canada, International

Section 2. Hazard Identification

GHS classification of the substance/mixture	:	Neither the mixture nor its major constituents are listed in (a) the CLP/GHS database (Table 3.1 and 3.2 of Annex VI to CLP) and (b) OSHA Laws & Regulations (29 CFR - 1910 Subpart Z: Table Z-1 to Z-3) as hazardous materials.
GHS label elements		
Pictogram symbol	:	Not applicable
Signal word	:	Not applicable
Hazard statement	:	Not hazardous
Precautionary statement		
General	:	Read label before use. Keep out of reach of children. If medical advice is needed, have product container/label at hand.
Prevention	:	Wash hands thoroughly after handling.
Response	:	Do not eat, drink or smoke when using this product. If skin or eye irritation occurs get medical advice/attention. If in eyes: rinse cautiously with water for several minutes.
Storage	:	Store in cool and dry place.
Disposal	:	Dispose of contents and container in accordance with local, regional, national and international regulations.

Other hazards (not: Covered the GHS)	Calcium nitrate and Magnesium nitrate are used in the manufacture of this product. The US National Fire Protection Association (NFPA) Code 430 (1995) has classified Magnesium nitrate as oxidizing material in Class 1, which do not cause spontaneous ignition when it comes in contact with combustible materials.
---	---

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "A"

Section 3. Composition/Information on Ingredients Section

Substance/Mixture : Mixture
Chemical identity : Not applicable
Common name/synonym: Not available
CAS number and other : Not applicable
Unique identifiers
Impurities and stabilizing additives: Not applicable

Ingredient name	CAS number	% (w/w)	Classification according to OSHA Law and Regulations
Calcium Nitrate	10124-37-5	10-20	Not classified as hazardous
Magnesium Nitrate	10377-60-3	10-20	Not classified as hazardous

The chemical identity of the remaining ingredients and their exact proportions used in the mixture are a proprietary trade secret (protected by the Confidential Business Information – CBI) and, within the current knowledge of the manufacturer and in the concentration applicable, they are not hazardous to health or the environment.

Section 4. First-aid Measures

Description of necessary measures

Self-protection of first-aiders : Pay attention to self-protection. No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

General information : Remove contaminated clothing immediately. In case of accident or unwellness, seek medical attention immediately.

Inhalation : Move victim to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention if adverse health effects persist or are severe.

Skin contact : Wash contaminated skin with plenty of water and soap. Wash contaminated clothing and clean shoes before reuse. Get medical attention if adverse health effects persist or are severe.

Eye contact : Immediately flush eyes with plenty of water with the eyelids open. Check for and remove any contact lenses. Continue to rinse for at least 15 minutes. Get medical attention if adverse health effects persist or are severe.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "A"

#

Ingestion : If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. If necessary, call a poison center or physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Most important symptoms/effects, acute and delayed:

Inhalation : Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.

Skin contact : Not known health effect due to skin contact.

Eye contact : If in eyes, it causes eye irritation

Ingestion : If swallowed, it irritates mouth, throat and stomach.

Indication of immediate medical attention and special treatment needed:

Notes to physician : In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

Specific treatments : No specific treatment.

See also toxicological information (Section 11)

Section 5. Fire-fighting Methods

Suitable extinguishing media : Any media suitable for extinguishing a surrounding fire.

Unsuitable extinguishing media: Not known

Specific hazards arising from the chemical : In a fire, hazardous thermal decomposition products may be produced including nitrogen oxides and metal oxide/oxides.

Special protective equipment for fire-fighters : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus with a full face-piece operated in positive pressure mode.

Special protective precautions for fire-fighters : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Risk of explosion. If large quantities are involved in a major fire, evacuate the area. No action shall be taken involving any personal risk or without suitable training.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "A"

#

**Special protective precautions :
for fire-fighters (continued)**

Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

For emergency personnel : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has Caused environmental pollution (sewers, waterways, soil or air)

Methods and materials for containment and clean up

Small spill : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Do not absorb in sawdust or other combustible material. It may lead to a fire risk when it dries out. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose via a licensed waste disposal contractor.

Large spill : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Do not absorb in sawdust or other combustible material. It may lead to a fire risk when it

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "A"

#

dries out. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product.

Section 7. Handling and Storage

Precautions for safe handling

Advice on general hygiene

: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.

Protective measures

: Put on appropriate personal protective equipment. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Keep away from clothing, incompatible materials and combustible materials. Keep away from heat. Empty containers retain product residue and can be hazardous. Do not reuse container.

Conditions for safe storage and any incompatibilities

: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Separate from reducing agents and combustible materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Section 8. Exposure Controls/Personal Protection

Control parameters

Occupational exposure limits

: Not applicable according to OSHA's mandatory PELs in the Z-Tables

Biological limit values

: None

Appropriate engineering

: No special ventilation requirements. Good general

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "A"

#

Controls	ventilation should be sufficient to control worker exposure to airborne contaminants.
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.
Individual protection measures	
Hygiene measures	Wash hands, forearms and face thoroughly after handling chemical products, before breaks and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. PPE should be used in conjunction with other control measures, including engineering controls, ventilation and isolation. See Section 5 (Fire-fighting measures) of the SDS for specific fire/chemical PPE advice.
Personal Protective Equipment (PPE)	
Eye/face protection	Do not get in eyes. Wear chemical safety goggles and a face shield if splashing hazard exists.
Skin protection	Avoid skin contact. Wear gloves when handling the product directly.
Respiratory protection	Not normally required if the product is used as directed. Use a properly fitted, air-purifying or supplied air respirator complying with an approved standard if a risk assessment indicates this is necessary
Thermal hazards	None

Section 9. Physical and Chemical Properties

Appearance(physical state)	Liquid, Deep burgundy, opaque
Odor	Mineral
Odor threshold	Not available
pH	5.08–5.59
Melting point/Freezing point	Not available/-9.0°C

Initial boiling point and boiling range	100°C (212°F)
Flash point	Not available
Evaporation rate	Not available
Flammability (solid, gas)	Not available
Upper/lower flammability or explosive limits	Not available
Vapor pressure	Not available

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "A"

#

Vapor density	:	Not available
Relative density	:	1.146–1.164 g/ml
Solubility (ies)	:	Complete in water
Partition coefficient: n-octanol/water	:	Not available
Auto-ignition temperature	:	Not available
Decomposition temperature	:	Not available
Viscosity	:	Not available

Section 10. Stability and Reactivity

Reactivity	:	Not available
Chemical stability	:	Normally Stable
Possibility of hazardous reactions	:	No hazardous reactions or instability may occur when it contact with combustible materials.
Conditions to avoid	:	Freezing temperatures
Incompatible materials	:	Reducing materials, organic materials, metals and acids.
Hazardous decomposition products	:	None under normal conditions of storage and use

Section 11. Toxicological Information

Acute toxicity

Ingredient	Toxicity	Species	Dose*	Remark
Calcium nitrate	Oral LD50	Rat	300 – 2000 mg/kg Bw	Harmful if swallowed
	Inhalation LC50	No data available	No data available	No data available
	Dermal LD50	No data available	No data available	No data available

*- Obtained from ECHA (Updated Feb. 25, 2015)

Skin corrosion/irritation	:	No data available
Serious eye damage/irritation	:	No data available
Respiratory or skin sensitization	:	No data available
Germ cell mutagenicity	:	No data available
Carcinogenicity	:	No data available
Reproductive toxicity	:	No data available
STOT-single exposure	:	No data available

STOT-repeated exposure	:	No data available
Aspiration hazard	:	No data available
The Likely routes of exposure, health effects and Symptoms related to the physical, chemical and toxicological characteristics		
Eye contact	:	If in eyes, it causes eye irritation. The symptoms may include irritation, watering and redness.
Inhalation	:	There is no known health effect.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "A"

#

Skin contact : There is no known health effect.
Ingestion : It is harmful if ingested. Irritating to mouth, throat and stomach. There is no known health effect.

Delayed and immediate effects and also chronic effects from short or long term exposure

Short-term exposure

Potential immediate effects : Not known

Potential delayed effects : Not known

Long-term exposure

Potential immediate effects : Not known

Potential delayed effects : Not known

Potential Chronic health effect : Not known

Numerical measures of toxicity

Acute toxicity estimate

Oral : No data available

Inhalation of vapors : No data available

Section 12. Ecological Information

Toxicity Ingredient Name	Result*	Species	Exposure	Reference
Calcium nitrate	Acute LC50 1378 mg/l	Fish-Labeo boga	96 hours	IUCLID 5
	Fresh water Acute LC50 490 mg/l	Aquatic invertebrate - Daphnia	48 hours	IUCLID 5
	Fresh water Acute EC50 > 1700 mg/l	Aquatic plants - Heterosigma akashiwo	10 days	IUCLID 5

*Practically non-toxic to aquatic organisms

Persistence and degradability : No data available
Bioaccumulative potential : No data available
Mobility in soil : No data available
Other adverse effects : No known significant effect

Section 13. Disposal Considerations

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "A"

#

Disposal of waste methods	:	Disposal of all waste must be done in accordance with municipal, provincial and federal regulations. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. No sewage disposal!!
Contaminated packaging	:	Empty containers should be recycled or disposed of through an approved waste management facility. Persons conducting disposal, recycling or reclamation activities should follow the information in Section 8 of this SDS.

Section 14. Transport Information

Identification of ingredients according to UN Model Regulations

UN number	This product is a mixture of ingredients which are not listed as Dangerous Goods' in Chapter 3.2 of UN Recommendations on the Transport of Dangerous Goods and/or one or more ingredients are included in the list but their mixture is exempted from the same Regulation based on the Articles 2.0.2.5 (C), 2.0.2.7 and 3.3.1 No.208.
UN proper shipping name	
Transport hazard class(es)	
Packing group	
Special precaution for user	Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.
Transport in bulk	Not applicable ($\leq 1000L$ -container)

Environmental hazards

Ingredient's name	IMDG	UN	ADR	RID	AND
Calcium nitrate	No	No	No	No	No
Magnesium nitrate	No	No	No	No	No

Section 15. Regulatory Information

Safety, health and environmental regulations: specific for the product in question

No known specific national and/or regional regulations applicable to this product (including its ingredients).

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

Section 1. Identification

GHS product identifier	:	H2OtoGro Hydroponic Nutrient Part "B"
Other means of identification	:	Hydroponic Nutrient "Part B"
Recommended use of the Chemical and restriction on use	:	A plant nutrient used to obtain faster growth and larger yields in all kinds of growing media. Not to be used as food or feed in any forms.
Supplier/Manufacturer's details:		H2OtoGro Hydroponics 24835 N. Sunset St Paulden, AZ 86334 Tel: (951) 381-0550 Email: info@h2otogro.com www.h2otogro.com
Emergency Phone number	:	24 Hour Transportation Emergency Number H2OtoGro Hydroponics (951) 381-0550, U.S.A, Canada, International

Section 2. Hazard Identification

GHS classification of the substance/mixture	:	Neither the mixture nor its major constituents are listed in (a) the CLP/GHS database (Table 3.1 and 3.2 of Annex VI to CLP) and (b) OSHA Laws & Regulations (29 CFR - 1910 Subpart Z: Table Z-1 to Z-3) as hazardous materials.
GHS label elements		
Pictogram symbol	:	Not applicable
Signal word	:	Not applicable
Hazard statement	:	Not hazardous
Precautionary statement		
General	:	Read label before use. Keep out of reach of children. If medical advice is needed, have product container/label at hand.
Prevention	:	Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.
Response	:	If skin or eye irritation occurs get medical advice/attention. If in eyes: rinse cautiously with water for several minutes.
Storage	:	Store in cool and dry place.
Disposal	:	Dispose of contents and container in accordance with local, regional, national and international regulations.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

Other hazards (not: Covered the GHS

Potassium nitrate is used in the manufacture of this product. The US National Fire Protection Association (NFPA) Code 430 (1995) has classified Potassium nitrate as oxidizing material in Class 1, which do not cause spontaneous ignition when it comes in contact with combustible materials.

Section 3. Composition/Information on Ingredients Section

Substance/Mixture : Mixture
Chemical identity : Not applicable
Common name/synonym: Not available
CAS number and other : Not applicable
Unique identifiers
Impurities and stabilizing: Not applicable
additives

Ingredient name	CAS number	% (w/w)	Classification according to OSHA Law and Regulations
Potassium Nitrate	7757-79-1	10-30	Not classified as hazardous
Potassium Sulfate	7778-80-5	1-5	Not classified as hazardous
Urea	57-13-6	5-10	Not classified as hazardous

The chemical identity of the remaining ingredients and their exact proportions used in the mixture are a proprietary trade secret (protected by the Confidential Business Information – CBI) and, within the current knowledge of the manufacturer and in the concentration applicable, they are not hazardous to health or the environment.

Section 4. First-aid Measures

Description of necessary measures

Self-protection of first-aiders : Pay attention to self-protection. No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

General information : Remove contaminated clothing immediately. In case of accident or unwellness, seek medical attention immediately.

Inhalation : Move victim to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention if adverse health effects persist or are severe.

Skin contact : Wash contaminated skin with plenty of water and soap. Wash contaminated clothing and clean shoes before reuse. Get medical attention if adverse health effects persist or are severe.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

- Eye contact** : Immediately flush eyes with plenty of water with the eyelids open. Check for and remove any contact lenses. Continue to rinse for at least 15 minutes. Get medical attention if adverse health effects persist or are severe.
- Ingestion** : If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. If necessary, call a poison center or physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Most important symptoms/effects, acute and delayed:

- Inhalation** : Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
- Skin contact** : Not known health effect due to skin contact.
- Eye contact** : If in eyes, it causes eye irritation
- Ingestion** : If swallowed, it irritates mouth, throat and stomach.

Indication of immediate medical attention and special treatment needed:

- Notes to physician** : In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
- Specific treatments** : No specific treatment.

See also toxicological information (Section 11)

Section 5. Fire-fighting Methods

- Suitable extinguishing media** : Any media suitable for extinguishing a surrounding fire.
- Unsuitable extinguishing media:** Not known
- Specific hazards arising from the chemical** : In a fire, hazardous thermal decomposition products may be produced including nitrogen oxides and metal oxide/oxides.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus with a full face-piece operated in positive pressure mode.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

**Special protective precautions :
for fire-fighters**

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Risk of explosion. If large quantities are involved in a major fire, evacuate the area. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. Fight fire from protected location or maximum possible distance.

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

For emergency personnel

: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air)

Methods and materials for containment and clean up

Small spill

: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Do not absorb in sawdust or other combustible material. It may lead to a fire risk when it dries out. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose via a licensed waste disposal contractor.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

Large spill : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Do not absorb in sawdust or other combustible material. It may lead to a fire risk when it dries out. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product.

Section 7. Handling and Storage

Precautions for safe handling

- Advice on general hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.
- Protective measures** : Put on appropriate personal protective equipment. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Keep away from clothing, incompatible materials and combustible materials. Keep away from heat. Empty containers retain product residue and can be hazardous. Do not reuse container.
- Conditions for safe storage and any incompatibilities** : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Separate from reducing agents and combustible materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

Section 8. Exposure Controls/Personal Protection

Control parameters

Occupational exposure limits : None

Biological limit values : None

Appropriate engineering Controls : No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures : Wash hands, forearms and face thoroughly after Handling chemical products, before breaks and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. PPE should be used in conjunction with other control measures, including engineering controls, ventilation and isolation. See Section 5 (Fire-fighting measures) of the SDS for specific fire/chemical PPE advice.

Personal Protective Equipment : (PPE)

Eye/face protection : Do not get in eyes. Wear chemical safety goggles and a face shield if splashing hazard exists.

Skin protection : Avoid skin contact. Wear gloves when handling the product directly.

Respiratory protection : Not normally required if the product is used as directed. Use a properly fitted, air-purifying or supplied air respirator complying with an approved standard if a risk assessment indicates this is necessary

Thermal hazards : None

Section 9. Physical and Chemical Properties

Appearance(physical state) : Liquid, Clear lightly yellow transparent

Odor : Mineral

Odor threshold : Not available

pH : 5.11–5.69

Melting point/Freezing point : Not available/-9.0°C

Initial boiling point and boiling range : 100°C (212°F)

Safety Data Sheet

Acute toxicity

Ingredient	Toxicity	Species	Dose*	Remark
Potassium nitrate	Oral LD50	Rat	> 2000 mg/kg bw	At 60% concentration
	Inhalation LC50	Rat	>0.527 mg/L air	No data available
	Dermal LD50	Rat	>5000 mg/kg bw	No data available
Potassium Sulfate	Oral LD50	Rat	No toxicity	For analog substance (KCl)-6600 mg.kg bw
	Inhalation LC50	Rat	No toxicity	Not significant for analog substance
	Dermal LD50	Rat	> 2000 mg/kg bw	Not toxic
Urea	Oral LD50	Cow	600-1080 mg.kg bw	Lower toxicity
	Inhalation LC50	-	No toxicity	
	Dermal LD50	-	No toxicity	

*- Obtained from ECHA (Updated Feb. 25, 2015)

Skin corrosion/irritation : Not-irritating to the skin (Potassium nitrate, Potassium sulfate and Urea)

Serious eye damage/irritation : Non-irritant (Potassium nitrate and Potassium sulfate) mildly irritating to eyes (Urea),

Respiratory or skin sensitization : Non skin sanitizer (Potassium nitrate, Urea)

Germ cell mutagenicity : No data available

Carcinogenicity : No data available

Reproductive toxicity : No adverse effect (Potassium nitrate and Potassium sulfate), No data available (Urea)

STOT-single exposure : No data available

STOT-repeated exposure : No data available

Aspiration hazard : No data available

The Likely routes of exposure, health effects and Symptoms related to the physical, chemical and toxicological characteristics

Eye contact : If in eyes, it causes eye irritation. The symptoms may include irritation, watering and redness.

Inhalation : There is no known health effect.

Skin contact : There is no known health effect.

Ingestion : It is harmful if ingested. Irritating to mouth, throat and stomach. There is no known health effect.

Delayed and immediate effects and also chronic effects from short or long term exposure

Short-term exposure

Potential immediate effects : Not known

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

Potential delayed effects	: Not known
Long-term exposure	
Potential immediate effects	: Not known
Potential delayed effects	: Not known
Potential Chronic health effect	: Not known
Numerical measures of toxicity	
Acute toxicity estimate	
Oral	: No data available
Inhalation of vapors	: No data available

Section 12. Ecological Information

Toxicity Ingredient Name	Result	Species	Exposure	Reference
Potassium nitrate	Acute LC50 1378 mg/l Fresh water	Fish – Poecilia reticulata	96 hours	ECHA
	Acute LC50 490 mg/l Fresh water	Aquatic invertebrate - Daphnia	48 hours	IUCLID 5
Potassium Sulfate	Acute LC50 720 mg/l Fresh water	Aquatic invertebrate - Daphnia	48 hours	ECHA
	Acute LC50 680 mg/l Fresh water	Fish – Fathead minnows	96 hours	ECHA
Urea	Acute LC50 > 6810 mg/l Fresh water	Fish – Golden orfe fish	96 hours	ECHA

Persistence and degradability	: No data available
Bioaccumulative potential	: No data available
Mobility in soil	: No data available
Other adverse effects	: No known significant effect

Section 13. Disposal Considerations

Disposal of waste methods	: Disposal of all waste must be done in accordance with municipal, provincial and federal regulations. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. No sewage disposal!!
----------------------------------	--

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

Contaminated packaging : Empty containers should be recycled or disposed of through an approved waste management facility. Persons conducting disposal, recycling or reclamation activities should follow the information in Section 8 of this SDS.

Section 14. Transport Information

Identification of ingredients according to UN Model Regulations

UN number	This product is a mixture of ingredients which are not listed as Dangerous Goods' in Chapter 3.2 of UN Recommendations on the Transport of Dangerous Goods and/or one or more ingredients are included in the list but their mixture is exempted from the same Regulation based on the Articles 2.0.2.5 (C), 2.0.2.7 and 3.3.1 No.208.
UN proper shipping name	
Transport hazard class(es)	
Packing group	
Special precaution for user	Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.
Transport in bulk	Not applicable ($\leq 1000L$ -container)

Environmental hazards

Ingredient's name	IMDG	UN	ADR	RID	AND
Potassium nitrate	No	No	No	No	No

Section 15. Regulatory Information

Safety, health and environmental regulations: specific for the product in question No known specific national and/or regional regulations applicable to this product (including its ingredients).

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

However, H2OtoGro Hydroponics makes no representation as to the comprehensiveness or accuracy of the information provided. It is expected that individuals receiving the information will exercise their independent judgment in determining the appropriateness for a particular period. Accordingly, H2OtoGro Hydroponics will not be responsible for damages of any kind resulting from the use of or reliance upon such information. No representations or warranties, either expressed or implied, of merchantability, fitness for a particular purpose or any other nature are made hereunder to which the information refers. The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

Section 1. Identification

GHS product identifier	:	H2OtoGro Hydroponic Nutrient Part "B"
Other means of identification	:	Hydroponic Nutrient "Part B"
Recommended use of the Chemical and restriction on use	:	A plant nutrient used to obtain faster growth and larger yields in all kinds of growing media. Not to be used as food or feed in any forms.
Supplier/Manufacturer's details:		H2OtoGro Hydroponics 24835 N. Sunset St Paulden, AZ 86334 Tel: (951) 381-0550 Email: info@h2otogro.com www.h2otogro.com
Emergency Phone number	:	24 Hour Transportation Emergency Number H2OtoGro Hydroponics (951) 381-0550, U.S.A, Canada, International

Section 2. Hazard Identification

GHS classification of the substance/mixture	:	Neither the mixture nor its major constituents are listed in (a) the CLP/GHS database (Table 3.1 and 3.2 of Annex VI to CLP) and (b) OSHA Laws & Regulations (29 CFR - 1910 Subpart Z: Table Z-1 to Z-3) as hazardous materials.
GHS label elements		
Pictogram symbol	:	Not applicable
Signal word	:	Not applicable
Hazard statement	:	Not hazardous
Precautionary statement		
General	:	Read label before use. Keep out of reach of children. If medical advice is needed, have product container/label at hand.
Prevention	:	Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.
Response	:	If skin or eye irritation occurs get medical advice/attention. If in eyes: rinse cautiously with water for several minutes.
Storage	:	Store in cool and dry place.
Disposal	:	Dispose of contents and container in accordance with local, regional, national and international regulations.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

Other hazards (not: Covered the GHS

Potassium nitrate is used in the manufacture of this product. The US National Fire Protection Association (NFPA) Code 430 (1995) has classified Potassium nitrate as oxidizing material in Class 1, which do not cause spontaneous ignition when it comes in contact with combustible materials.

Section 3. Composition/Information on Ingredients Section

Substance/Mixture : Mixture
Chemical identity : Not applicable
Common name/synonym: Not available
CAS number and other : Not applicable
Unique identifiers
Impurities and stabilizing additives : Not applicable

Ingredient name	CAS number	% (w/w)	Classification according to OSHA Law and Regulations
Potassium Nitrate	7757-79-1	10-30	Not classified as hazardous
Potassium Sulfate	7778-80-5	1-5	Not classified as hazardous
Urea	57-13-6	5-10	Not classified as hazardous

The chemical identity of the remaining ingredients and their exact proportions used in the mixture are a proprietary trade secret (protected by the Confidential Business Information – CBI) and, within the current knowledge of the manufacturer and in the concentration applicable, they are not hazardous to health or the environment.

Section 4. First-aid Measures

Description of necessary measures

Self-protection of first-aiders : Pay attention to self-protection. No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

General information : Remove contaminated clothing immediately. In case of accident or unwellness, seek medical attention immediately.

Inhalation : Move victim to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention if adverse health effects persist or are severe.

Skin contact : Wash contaminated skin with plenty of water and soap. Wash contaminated clothing and clean shoes before reuse. Get medical attention if adverse health effects persist or are severe.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

- Eye contact** : Immediately flush eyes with plenty of water with the eyelids open. Check for and remove any contact lenses. Continue to rinse for at least 15 minutes. Get medical attention if adverse health effects persist or are severe.
- Ingestion** : If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. If necessary, call a poison center or physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Most important symptoms/effects, acute and delayed:

- Inhalation** : Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
- Skin contact** : Not known health effect due to skin contact.
- Eye contact** : If in eyes, it causes eye irritation
- Ingestion** : If swallowed, it irritates mouth, throat and stomach.

Indication of immediate medical attention and special treatment needed:

- Notes to physician** : In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
- Specific treatments** : No specific treatment.

See also toxicological information (Section 11)

Section 5. Fire-fighting Methods

- Suitable extinguishing media** : Any media suitable for extinguishing a surrounding fire.
- Unsuitable extinguishing media:** Not known
- Specific hazards arising from the chemical** : In a fire, hazardous thermal decomposition products may be produced including nitrogen oxides and metal oxide/oxides.
- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus with a full face-piece operated in positive pressure mode.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

Special protective precautions : for fire-fighters

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Risk of explosion. If large quantities are involved in a major fire, evacuate the area. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. Fight fire from protected location or maximum possible distance.

Section 6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

For emergency personnel

: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions

: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air)

Methods and materials for containment and clean up

Small spill

: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Do not absorb in sawdust or other combustible material. It may lead to a fire risk when it dries out. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose via a licensed waste disposal contractor.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

Large spill : Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Do not absorb in sawdust or other combustible material. It may lead to a fire risk when it dries out. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product.

Section 7. Handling and Storage

Precautions for safe handling

Advice on general hygiene : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.

Protective measures : Put on appropriate personal protective equipment. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Keep away from clothing, incompatible materials and combustible materials. Keep away from heat. Empty containers retain product residue and can be hazardous. Do not reuse container.

Conditions for safe storage and any incompatibilities : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Separate from reducing agents and combustible materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

Section 8. Exposure Controls/Personal Protection

Control parameters

Occupational exposure limits : None

Biological limit values : None

Appropriate engineering Controls : No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Environmental exposure controls : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures : Wash hands, forearms and face thoroughly after Handling chemical products, before breaks and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. PPE should be used in conjunction with other control measures, including engineering controls, ventilation and isolation. See Section 5 (Fire-fighting measures) of the SDS for specific fire/chemical PPE advice.

Personal Protective Equipment : (PPE)

Eye/face protection : Do not get in eyes. Wear chemical safety goggles and a face shield if splashing hazard exists.

Skin protection : Avoid skin contact. Wear gloves when handling the product directly.

Respiratory protection : Not normally required if the product is used as directed. Use a properly fitted, air-purifying or supplied air respirator complying with an approved standard if a risk assessment indicates this is necessary

Thermal hazards : None

Section 9. Physical and Chemical Properties

Appearance(physical state) : Liquid, Clear lightly yellow transparent

Odor : Mineral

Odor threshold : Not available

pH : 5.11–5.69

Melting point/Freezing point : Not available/-9.0°C

Initial boiling point and boiling range : 100°C (212°F)

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

Flash point	:	Not available
Evaporation rate	:	Not available
Flammability (solid, gas)	:	Not available
Upper/lower flammability or explosive limits	:	Not available
Vapor pressure	:	Not available
Vapor density	:	Not available
Relative density	:	1.143–1.190 g/ml
Solubility (ies)	:	Complete in water
Partition coefficient: n-octanol/water	:	Not available
Auto-ignition temperature	:	Not available
Decomposition temperature	:	Not available
Viscosity	:	Not available

Section 10. Stability and Reactivity

Reactivity	:	Not available
Chemical stability	:	Normally Stable
Possibility of hazardous reactions	:	Hazardous reactions or instability may occur under certain conditions of storage or use, such as contact with combustible materials which may result in risk of causing or intensifying fire.
Conditions to avoid	:	Freezing temperatures
Incompatible materials	:	Reducing materials, organic materials, metals and acids.
Hazardous decomposition products	:	None under normal conditions of storage and use

Safety Data Sheet

H2OtoGro Hydroponic Nutrient Part "B"

Section 11. Toxicological Information

Acute toxicity

Ingredient	Toxicity	Species	Dose*	Remark
Potassium nitrate	Oral LD50	Rat	> 2000 mg/kg bw	At 60% concentration
	Inhalation LC50	Rat	>0.527 mg/L air	No data available
